TERMS & CONDITIONS

1. Advance Payment

A 50% advance payment is required to initiate the project.

2. Project Review & Payment Process

After the initial development, a model/preview of the website will be shared with the client for review.

- If corrections or revisions are required within the agreed scope, the client shall pay the next 30% milestone payment, after which the requested corrections will be completed.
- Once the corrections are completed and the website is finalized, the remaining 20% final payment must be settled before the website is made live.
- If no corrections are required, the remaining 50% balance payment must be settled before the website is made live.

3. Project Commencement

Project development will begin only after confirmation and receipt of the advance payment.

4. Additional Requirements

Any additional features, functionalities, pages, or requirements outside the originally agreed project scope will be charged separately.

5. Third-Party Charges

Any third-party charges, including domain, hosting, payment gateway, SMS, email services, APIs, plugins, subscriptions, or other external services, will be borne by the client.

6. Client Responsibilities

The client is responsible for providing all required content, images, logos, product details, business information, and other project materials within the agreed timeline.

7. Content & Approval Delays

Any delay in providing required content, feedback, approvals, or confirmations from the client may affect the project delivery timeline.

8. Revisions

Minor revisions within the agreed project scope are included. Major design changes, new requirements, or revisions beyond the agreed scope may incur additional charges.

9. Cancellation & Refund Policy

Once project development has commenced, the 50% advance payment is non-refundable. If the client decides to discontinue the project after development has started, the advance payment will not be refunded. Any remaining amount paid by the client, after deducting the applicable charges for work completed up to the cancellation date, will be refunded. The completed project assets will be handed over after settlement of all applicable dues.

10. Final Delivery & Ownership

Final project files/source code and deployment will be provided only after full payment has been settled. Project ownership and handover will be completed upon receipt of the full project payment.

11. Optional Maintenance & Support

Maintenance and ongoing technical support are optional and are not included in the project development charges unless specifically mentioned in the quotation.
If the client chooses a maintenance plan, it will be charged separately based on the selected plan and agreed services.
Maintenance may include:

- Website bug fixing and technical support
- Minor content or text updates
- Minor UI adjustments
- Basic website monitoring
- Deployment and hosting-related support

Major feature additions, new pages, redesigns, third-party integrations, or functionality changes are not included in maintenance and will be charged separately.
If the client does not opt for a maintenance plan, any future updates, bug fixes, technical support, or modifications after project handover may be charged separately based on the work required.
